PROFESSIONAL SUMMARY

CCNA-certified networking graduate with hands-on experience in live network operations, troubleshooting, and IT support. Strong communicator, quick decision-maker, and reliable under deadlines. Seeking a Network Engineer, IT Desk Support, or L1/L2 Support Engineer role.

TECHNICAL SKILLS

- **Networking:** TCP/IP, LAN/WAN, Routing & Switching, VPN, Cisco Packet Tracer, Network Troubleshooting
- **Systems & Tools:** Windows OS, Server Monitoring, Remote Connectivity, MS Excel, Documentation
- **Soft Skills:** Client Communication, Team Coordination, Problem-Solving Under Pressure

PROFESSIONAL EXPERIENCE

Assistant Technical Engineer — Thanthi TV 2025 – Present

- Monitor critical RF satellite downlinks and IP-based network infrastructure, maintaining 99.9% uptime across 24x7 live on-air broadcast operations.
- Troubleshoot, configure, install, and resolve real-time network and IT infrastructure issues, minimizing operational downtime; maintain encoder/decoder streaming broadcast devices.
- Manage 50TB+ of server data storage, IT peripherals, cloud live servers, archiving, and remote connectivity; maintain documentation in Excel and ledgers.

Account Receivable Specialist — Ventra Health 2024 – 2025

- Communicated with 20+ US-based clients daily to review and resolve account and documentation issues, handling fault management and delivering quick outcomes for each account.
- Handled 150+ data entry records and call sheets in MS Excel with 99% accuracy; coordinated with the team to meet monthly deadlines, following SOPs and CRM/RCM processes.

PROJECTS

- **Office Network Design (Packet Tracer)** — Simulated an office IT network with device layout and IP addressing.
- **Theft Detection System** — Built an alert system to detect unauthorized intrusion.
